

DUSAL

# Dusal

**Over 88 years of** crafting exceptional bananas in Ecuador. **We're a family-driven company** with deep expertise and a strong focus on sustainability.

Delivering **premium quality** with heart. **Our dedication to the enviroment** and local communities fuels our global succes.

# Journey Through Time

Mr. Humberto Salgado Vassi initiates activities in the banana sector.

1935

Foundation of the exporter, concentrating operations in Ecuador, the world's largest banana producer.

1976

Expansion into pineapple production alongside bananas.

1990

Introduction of sustainable farming practices, prioritizing environmental responsibility.

2010

Implementation of cutting-edge technology and innovative agricultural techniques.

2020

DUSAL Group continues its legacy under family leadership, led by Ing. Marcelo Ernesto Salgado Olcense, and maintains its commitment to excellence in banana and pineapple production, with a strong focus on sustainability and global market presence.

2023

## Three Generations of Dedication at Dusal

We've cultivated excellence in Ecuador's banana industry. Come savor tradition with a taste for the future – where family values and premium bananas meet.

# DUSAL Group

DUSAL Group, specialized in the production and exportation of first- quality bananas and pineapples under the brand 'Dusal,' maintains its operational headquarters strategically situated in Guayaquil, Ecuador.

Our operations are led by Ing. Marcelo Ernesto Salgado Olcense, the President of the company. Under his family's stewardship, the business excels in producing and exporting premium bananas and pineapples bearing the Dusal brand.

Our fruit, renowned for its superior quality, originates from our company-owned farms and trusted partner producers who adhere to stringent quality standards through long-term agreements. This commitment to excellence ensures that Dusal consistently delivers top-tier produce to international markets.

# OUR CERTIFICATES

In order with Corporate Social Responsibility and Sustainability, all Dusal farmers have Global Gap certificate. As an example of environmental care, Dusal's own farm is one of the few that have solar power plant in Ecuador. Also, Dusal Group exports have more than 10 years with BASC certification.

## Carbon Neutral

The term carbon neutral is heard more and more, this due to the large number of companies and countries that set it as an objective, with the year 2050 as a goal. Currently, it is considered one of the most important measures to fight against change climate.

Being carbon neutral means making these emissions equivalent to zero, to achieve this it is necessary to create action plans and thus reduce, compensate and/or remove the emissions generated, whether by a company, industry or country.

## Basc

Control in all production processes, shipment, shipment and transport of cargo that goes abroad.

## GlobalGap

Objectively ensures that food has been produced following quality guidelines and good practices.

## Delta Global

Carbon Neutral Certification, confirming the carbon footprint neutrality and our commitment to environmental care.

# DESTINATIONS

# TRANSPORT

For maritime transport, we collaborate with renowned shipping lines, including Hamburg-Sud, Hapag Lloyd, Evergreen, CMA CGM, Maersk, ONE, and other reputable partners. These distinguished partners ensure optimal refrigerated transport, preserving the impeccable quality of our products.

## OUR BRANDS

Sourced from our own farms and trusted partners, our produce embodies excellence from field to table.
